

Pew Research Center Global Attitudes & Trends Spring 2025 24-country survey

It is important to read this information before using the Pew Research Center's Spring 2025 Global Attitudes survey dataset.

- General population weight (must be used when analyzing the attitudes and opinions of the general population): Weight

Weight by weight for this analysis.

- The full topline results are for the general populations, unless otherwise stated. To access topline trends, please use the Pew Global Attitudes & Trends Question Database on our [website](#).
- The questionnaire includes full question wording as well as response options. Country-specific response options to the questions about current religion are listed in Appendix A of the questionnaire. Question wording and response options for any demographic questions that vary by country (education, income, etc.) can be found in the variable and value labels in the data file and the data dictionary.
- Methodological overviews of each survey country, including sample design, mode, languages, fieldwork dates, sample size, margin of error and representativeness are available on our methods [website](#).
- Certain variables have been eliminated from the dataset either because of disclosure sensitivities or because of administrative errors.
- U.S. data used for reporting was collected on Waves 162, 166, 173 and 176 of the American Trends Panel, as well as the 2025 National Public Opinion Reference Survey (NPORS).

ATP data will be made available on our [website](#).

NPORS 2025 data is available on our [website](#).
